

**OFFICE OF THE GOVERNOR  
NEVADA STATE OFFICE OF ENERGY**

**New Energy Industry Task Force  
Memorandum**

August 30, 2012

Task Force members, Advisory Committee members and interested Public,

I wanted to provide a brief update on the status of the New Energy Industry Task Force, specifically the work of the Business Case subcommittee. We canceled the full August Task Force meeting until we were able to have a first draft of the Business Case report reviewed by the subcommittee. We have scheduled the next subcommittee meeting for Sept 7<sup>th</sup>, 2012 at 9:00 am and will have the draft available in time for committee members and the public to review prior to the call.

In addition, the Transmission subcommittee has been meeting at publicly noticed conference calls and is continuing to work diligently on topics related to transmission planning and financing.

Please see our website for agendas and meeting materials when they become available at [http://energy.state.nv.us/resources-forms/EI\\_TF.html](http://energy.state.nv.us/resources-forms/EI_TF.html).

Thank you for all of your valuable participation and work. I hope everyone has had an enjoyable summer and we look forward to seeing you all in September.

Have a happy and safe Labor Day weekend.

Sincerely,

A handwritten signature in blue ink that reads "Stacey Crowley".

Stacey Crowley, Chair
