Nevada State Office of Energy

Dear Office of Energy,

Adopting the current International Energy Conservation Codes will help use our power more efficiently, and reduce our dependence on costly and dangerous fossil fuels.

By improving building codes, we can reduce harmful emissions that deteriorate lung health while also contributing to global warming. By using energy more efficiently, we can save ratepayers money. Please support adopting the current International Energy Conservation Codes.

Sincerely,

Ms. Roxanne San Jose

Update Buildings' Energy Efficiency Standards

Nevada State Office of Energy

Dear Office of Energy,

I have lived in Nevada for over 25 years and we need to do better.

Adopting the current International Energy Conservation Codes will help use our power more efficiently, and reduce our dependence on costly and dangerous fossil fuels.

By improving building codes, we can reduce harmful emissions that deteriorate lung health while also contributing to global warming. By using energy more efficiently, we can save ratepayers money. Please support adopting the current International Energy Conservation Codes.

Sincerely,

Ms. Karolyn Nartker
