## FACT SHEET

NOVEMBER, 2017

Nevada Governor's Office of Energy

## Revolving Loans for Energy Efficiency and Renewable Energy (NRS 701.545)

Funded from the American Recovery and Reinvestment Act (ARRA) of 2009, the fund provides short term low-cost loans to developers of eligible projects in Nevada. These loans serve as a bridge financing option for various costs associated with these projects. Eligible applicants may receive a minimum of \$100,000 and a maximum of \$1 million. Loan terms are up to 15 years with an interest rate of 3% or less.

- Number of Projects: A total of 22 eligible projects have received funding.
- Job Creation and Retention: To be eligible for loan funds a project must demonstrate that it will create or retain at least one job. Many projects have exceeded this number.
- **Total Capacity**: The total size for all projects is over **2900 kW** nameplate.
- Total Loans Given: To date, the GOE has made loans of approximately \$17.4 million to eligible projects throughout Nevada.
- **Project Type**: The GOE has funded hydroelectric, wind, and solar projects.

A GOE loan funded three City of Las Vegas solar parking shade structures. City of Las Vegas received \$1.2 million from the Governor's Office of Energy to build the structures, which created 12 construction jobs, produced 1.2 million kWh of electricity annually, and will reduce  $CO_2$ emissions by 23.8 million pounds during the first 20 years of operation.

- **Requirements:** All projects must comply with the Davis-Bacon Act, National Environmental Policy Act, National Historic Preservation Act, and American Recovery and Reinvestment Act of 2009. A qualified project must meet one of the following criteria:
  - Construction or expansion of a renewable energy system.
  - Construction or operation of an energy conservation project.
  - Construction or operation of an energy efficiency project.
