

**OFFICE OF THE GOVERNOR  
NEVADA STATE OFFICE OF ENERGY**

January 31, 2011

In compliance with NAC 701A.200, the Director has determined that the following updated versions of the Leadership in Energy and Environmental Design (LEED) rating system are appropriate for use in this State:

- LEED NC – LEED 2009 for New Construction and Major Renovations
- LEED EB – Existing Buildings Operations and Maintenance
- LEED CS – LEED 2009 for Core and Shell Development

Effective date: April 2009

This notice of approval, a copy of the new or updated version and the effective date thereof have been posted at the State Library and Archives, the Office of Energy, and on the Internet website of the Office of Energy.
