

Governor’s Office of Energy
GREEN BUILDING TAX ABATEMENT
REGISTRATION APPLICATION
NEW CONSTRUCTION

- Complete all sections of this registration application and provide all additional information, using attachments if necessary.
- Remit registration application **with \$750 fee** payable to the Governor’s Office of Energy.
- Pursuant to **NAC 701A.220(1)**, this application should be submitted to the Governor’s Office of Energy **within 120 days** after registering the project with the Green Business Certification Inc. or the Green Building Initiative, respectively.
- Pursuant to **NAC 701A.220(4)**, the Director will not accept a registration application for a building or other structure that on the date the registration application is registered has been certified by the Green Building Certification Incorporation or Green Building Initiative.

Send Registration Application package to:

David Bobzien, Director
Governor’s Office of Energy
600 E. William Street, Suite 200
Carson City, NV 89701

<p>The applicable LEED or GG version and rating system on which the certification of the building or other structure will be based:</p>
<p>Attach a project narrative and include the following information:</p> <ol style="list-style-type: none"> 1. A site plan clearly identifying the proposed building or structure. 2. An Assessor’s Parcel Map which identifies the location of the project. 3. A list of planned energy efficient measures which are expected to obtain the appropriate energy points.

Provide the following details for each building or other structure included within the project: (attach additional documentation as needed).

Estimated gross square footage:	Est # of floors:
Proposed use:	
Estimated cost of the design and construction:	
Estimated cost of energy-efficient measures planned:	
Actual or estimated date of the start of construction:	
Expected date of occupancy:	

Governor’s Office of Energy

1. Attach a copy of the project registration with the applicable rating system, including the date of registration.
2. Attach a statement containing the level or rating and number of points of the applicable standard at which the applicant expects the project to be certified, in the form of a scorecard or checklist, as applicable identifying the specific credits or points that the project team intends to achieve under the applicable standard.
3. Provide a copy of the energy model report that demonstrates how the project intends to obtain the applicable points within the Optimized Energy Performance or Energy Performance category as applicable.
4. Attach a statement indicating whether any funding for the acquisition, design or construction of the building or other structure, and associated land, is being provided by a governmental entity in this State. If funding is provided by a governmental entity, include a list of all sources of funding.
5. Attach a statement indicating whether the building or other structure is receiving or is expected to receive any other abatement or exemption pursuant to NRS 361.045 to 361.159, inclusive, or NRS chapter 701A from the taxes imposed on real property by NRS chapter 361.
6. Attach a statement indicating whether the building or other structure, or any part thereof, is or is expected in the future to be exempt from the taxes imposed on real property by NRS chapter 361 pursuant to any provision of law other than NRS 361.045 to 361.159, inclusive, or NRS chapter 701A.
7. Identify any information included in this application, which the applicant considers to be confidential (Sec. 23.4) and provide a citation to the specific statute or other legal authority that makes the identified information, confidential.

Being owner, member, partner, officer or employee with signatory authorization for the business, I do hereby declare that the information herein stated is true and correct to the best of my knowledge and understanding.

NOTE:

- 1) If there is a significant change in the scope of the project after the project has been registered with the GOE, the applicant must amend the application to include the change within **60 days** after the occurrence of the change. In such cases, please use the “GBTA Registration Amendment Form”.
- 2) Within 48 months after this registration application is submitted to the GOE, the applicant must submit to the Director in accordance with NAC 701A.240:

(a) Proof that the building or other structure meets the equivalent of the silver level or higher of the LEED Green Building Rating System **OR** proof that the building or other structure meets the equivalent of a two globes level or higher under the Green Globes rating system; or

(b) A written request to extend the period for providing such proof along with the reasons for the extension request.

If an applicant has not submitted the proof or an application for extension, this application will be considered abandoned and notification will be sent to the applicant.

- 3) A project utilizing an aggregated campus-wide energy score will only be issued one tax abatement encompassing all of the structures used to calculate that energy score. The aggregated campus-wide energy score cannot be used for any other project.
- 4) Only one partial tax abatement may be awarded per parcel. If a building or other structure encompasses more than one parcel, only one partial tax abatement may be awarded for the building or structure.
- 5) If a partial tax abatement has ever been awarded for a parcel or for a building in the past, no partial tax abatement may be awarded for that parcel or building in the future in accordance with **NAC 701A.220(6)**.
