3. On April 24, 2020, DODGE FLAT SOLAR, LLC submitted its Application seeking partial abatement of sales and use taxes and property taxes for the construction and operation of a facility for the generation of geothermal renewable energy (“Facility”) that would be located in Washoe County, Nevada, Washoe County Assessor’s Parcel Numbers 079-150-11, 079-150-29, and 079-180-16 (“Parcel”). 4. The filed application supported that DODGE FLAT SOLAR, LLC was properly licensed and qualified to do business in Nevada; that DODGE FLAT SOLAR, LLC had obtained all required discretionary state and local licenses and permits, with the remaining permits to be obtained prior to start of construction, expected sometime during the fourth quarter 2020, and intended to maintain all of the required licenses and permits for the Facility; that DODGE FLAT SOLAR, LLC had all necessary approvals for the Facility; that the Facility would have an AC nameplate rating of up to 200 MW; that DODGE FLAT SOLAR, LLC had entered into a power purchase agreement with NV Energy; that the Facility was anticipated to be at least partially operational sometime during the third quarter of 2021; that the total capital investment of the Facility in Nevada will be approximately \$70,500,000; that the Facility would create approximately 2 full-time operational jobs which would pay an average of approximately \$38.90 per hour; and that the Facility would create an estimated 300 full-time construction jobs over the course of construction which would pay an average hourly wage of \$44.00 per hour.

5. That the average hourly wage that will be paid by the facility to its employees in this State, excluding management and administrative employees, is approximately \$38.90 which is at least 110% of the average statewide hourly wage for green industry tax abatements, currently posted by Department of Employment Training and Rehabilitation.
