3. On November 19, 2018, Techren Solar IV, LLC submitted its amended Application seeking partial abatement of sales and use taxes and property taxes for the construction and operation of a facility for the generation of solar renewable energy ("Facility") that would be located on approximately 164 acres of land in Clark County, Nevada, Clark County Assessor's Parcel Numbers 189-34-000-002, 207-00-001-025 and 207-00-001-027 ("Parcels"). The Application described a solar photovoltaic electric generating facility that would generate up to 25 AC Nameplate megawatts (MW) that would be sold to NV Energy for a period of 25 years pursuant to a power purchase agreement.

4. Pre-filed testimony from Mr. Greene supported that Techren Solar IV, LLC was properly licensed and qualified to do business in Nevada; that Techren Solar IV, LLC had obtained all required discretionary state and local licenses and permits, with the remaining permits to be obtained prior to start of construction, expected June 2019, and intended to maintain all of the required licenses and permits for the Facility; that Techren Solar IV, LLC had all necessary approvals for the Facility; that the Facility would have an AC nameplate rating of up to 25 MW; that Techren Solar IV, LLC had entered into a 25-year power purchase agreement with NV Energy; that the Facility was anticipated to be at least partially operational sometime during the last quarter of 2019; that the total capital investment of the Facility will be

approximately \$11,725,000; that the Facility would create approximately one full-time operational job which would pay an average of approximately \$30.00 per hour; and that the Facility would create an estimated 75 full-time construction jobs over the course of construction which would pay an average hourly wage of \$45.00 per hour.

5. That the average hourly wage that will be paid by the facility to its employees in this State, excluding management and administrative employees, is approximately \$30.00 which is at least 110% of the average statewide hourly wage for green industry tax abatements, currently posted by Department of Employment Training and Rehabilitation.

6. That the average hourly wage paid by the facility to all of its construction employees working on the facility, excluding management and administrative employees, will be approximately \$45.00 which is at least 175% of the average statewide hourly wage for green industry tax abatements, currently posted by Department of Employment Training and Rehabilitation.

7. The Fiscal Impact statement produced by the Department of Taxation shows the following estimated figures regarding the sales and uses taxes related to the Facility:

Total Amount Abated (Year 1)	\$1,456,395.42
Total Amount Abated (Year 2)	\$3,390.00

Total Property Taxes Abated Over Abatement Period	\$2,867,957
