

NEVADA PROGRAM IMPACTS

State Energy Efficient Appliance Rebate Program

The State of Nevada conducted a 2-phase mail-in rebate program to help residents replace older, inefficient appliances with new, ENERGY STAR® qualified models. **Nevada residents received a total of 15,278 rebates, representing total annual energy savings to the state of almost 7 billion Btu.** This is enough energy to light more than 1,000 homes for a year.

NEVADA AT A GLANCE

- Four products received rebates ranging from \$100 to \$200.
- Refrigerators were the most popular product; the rebated models will reduce Nevada's annual electricity use by nearly 618,000 kWh.
- Nevada received \$2,495,000 from the federal government to implement the program; more than 95 percent of this funding went directly to rebates.
- Retailers and manufactures provided \$130,000 of in-kind support.

REBATE DISTRIBUTION BY ZIP CODE

The State Energy Efficient Appliance Rebate Program, part of the American Recovery and Reinvestment Act of 2009 (ARRA), provided almost \$300 million in funding to all 56 U.S. states and territories to support consumer rebate programs for efficient appliances. This funding helped consumers replace their existing appliances with ENERGY STAR qualified products. In Nevada alone, the program is projected to save consumers more than \$424,000 annually on their energy and water bills.
